

Fabric Cleaning Methods.doc, 03.07.21, Tony Aspland and Bestop's fabric suppliers

The fabrics used by Bestop, Inc. (Bestop and Kinetex) are designed to withstand the normal effects of sun, heat, acid rain, and soiling. For specific stains, Bestop's fabric suppliers recommend using the cleaning procedures listed below.

| Stain | Cleaning Steps | | |
|-------------------------|-------------------------------|------------------------------------|------------------------------------|
| | 1 | 2 | 3 |
| Betadine (antiseptic) | Fantastik™.B | Warm soapy water ^A | |
| Chewing Gum | Remove excess ^D | Warm soapy water ^A | Fantastik™.B |
| Coffee, Tea, Chocolate | Fantastik™.B | | |
| Crayon | Remove excess | Fantastik™.B | |
| Eyeshadow | Fantastik™.B | | |

| Tar/Asphalt | Remove excess ^D | Warm soapy water ^A | Fantastik™.B |
| Wet Leaves* | Diluted ammonia ^C | Warm soapy water ^A | Fantastik™.B |

* These items contain dyes that stain permanently.

Note A: Use a medium-soft brush and warm soapy water, rinse with clean water and dry.

Note B: Fantastik™ spray cleaner, rinse with clean water and dry.

Note C: One (1) tablespoon of ammonia to one (1) quart of water, rinse with clean water and dry.

Note D: Wipe or scrape off excess (chill gum with ice).

Note E: Follow the staining-agent manufacturer's cleaning instructions.

ALL CLEANING METHODS SHOULD BE FOLLOWED BY A CLEAN WATER RINSE AND DRYING.

Disclaimer: Cleaners not endorsed by Bestop's fabric suppliers or not listed in the table above are not recommended.

Dry cleaning fluids and industrial solvents will damage the fabric and are not recommended. Automotive waxes and cleaners should be tested on a small area first because they can permanently damage the fabric's protective coatings.

Signs of damage include (but are not limited to) tacky fabric surfaces, color blending, and general discoloration.
